Kindergarten

**Get Ready for Kindergarten!**

K1

- Designed to help prepare your child for entering kindergarten in September, this course will develop their social skills and confidence when communicating in English. Your child will also learn vocabulary related to summer and school life and will develop their ability to use words and actions to communicate by taking part in interesting activities like creating sand texture crafts and making ice lollies.

We only accept children who will be aged 3 on or before the course start date.

**Stay and Play**

- Immerse your child in an exciting English-only classroom environment, and stimulate a love for English where imagination and creativity grow! Children will gain confidence in a classroom environment and strengthen their fine and gross motor skills through structured activities, which will help prepare children for K1 classes.

Children must be accompanied by a parent or caregiver aged 18 or above for the whole lesson.

7 students with one parent or caregiver per child.

- **Six 1.5-hour lessons over three weeks**
  - **HK$3,960** 9 hours

**Chameleon’s Adventure**

K2

- Embarking on an exciting adventure with the chameleons, your child will develop their speaking skills and learn vocabulary through participating in structured play activities such as writing animal vocabulary items, making a book about animal body parts and creating their own mixed-up animals to present to the class.

- **Six 3-hour lessons over two or three weeks / Nine 2-hour lessons over three weeks**
  - **HK$5,120** 18 hours

**Communicating Confidently**

K2

- This course is based on three classic children’s books. Children are encouraged to stretch their imagination and improve their communication skills through meaningful activities, such as discussions, role play, and creating and using dialogue with appropriate voice projection. They will learn skills and techniques to help them express their ideas clearly to their peers.

- **Three 3-hour lessons over one week**
  - **HK$3,030** 9 hours

**Immerse your child in an exciting English-only classroom environment, and stimulate a love for English where imagination and creativity grow! Children will gain confidence in a classroom environment and strengthen their fine and gross motor skills through structured activities, which will help prepare children for K1 classes.**

Children must be accompanied by a parent or caregiver aged 18 or above for the whole lesson.

7 students with one parent or caregiver per child.

  - **HK$3,240** 9 hours

**K2**

- **Six 3-hour lessons over two or three weeks / Nine 2-hour lessons over three weeks**
  - **HK$3,240** 9 hours
This course has a strong emphasis on teamwork and collaboration so as to create more opportunities for authentic communication in English. Through participating in various arts and crafts activities, your child will explore and express their creativity, experiment with elements of art (such as shapes and textures), develop their design abilities and improve their gross and fine motor skills.

Creative Arts Club

Three 3-hour lessons over one or two weeks

HK$2,650 9 hours

Get Ready for Primary Interviews

The class will explore topics that may come up during primary school interviews. Your child will participate in a short practice interview and activities designed to give children the opportunity to speak. The goal of the primary school admission interview is to assess a child’s ability to function in a classroom, and to communicate and complete work individually and as part of a group.

Three 3-hour lessons over one week

HK$3,030 9 hours

Speech and Drama

Your child will be encouraged to communicate in English through rhymes, poems, discussions and drama related to space. They will learn skills and techniques to help them concentrate, co-ordinate their motor skills, project their voice and communicate with more confidence.

Three 3-hour lessons over one or two weeks

HK$3,030 9 hours

An Adventure in Space

Based on a story about the moon’s adventures in space, this course explores space, the planets, and space travel. Your child will build a vocabulary bank of space objects and learn how to use a variety of verbs, adjectives, superlatives and comparatives creatively through role playing visits to different planets, creating planets out of different materials and taking part in other fun activities. They will also record each lesson’s interplanetary visits and experiences in a passport.

Six 3-hour lessons over two or three weeks / Nine 2-hour lessons over three weeks

HK$5,120 18 hours
Phonics

First Step to Phonics

Your child’s first step into reading!
We use fun and engaging tools such as an alphabet box and sand boxes, and activities such as singing songs, decorating letters with objects and making crafts to expose them to the world of letters and sounds. They will develop their love for reading as they escape into imaginary worlds of fantasy through listening to their teacher read stories to them.

We only accept children who will be aged 3 on or before the course start date.

Six 1.5-hour lessons over two or three weeks

HK$3,860  9 hours

Phonemic Awareness

This course primes learners to identify, produce and reproduce a wide variety of sounds to help them gain a better understanding of how words and sentences are made up of smaller units. This is done by having your child explore environmental and instrumental sounds, body percussion, rhythm and rhyme, alliteration and real-life sounds perception and production.

Nine 1.5-hour lessons over three weeks

HK$4,900  13.5 hours

Blending and Reading

This course will help your child strengthen their reading skills through exposure to different genres. They will refine their blending skills and their ability to recognise and use difficult words comfortably. This will help them read with greater accuracy and fluency, and help develop their comprehension skills.

Existing students who have completed 6-Stage Phonics (Stage 1 to 2) or 4-Stage Phonics (Stage 1 to 2) of our Phonics courses can join this course without taking a phonics assessment.

Nine 1.5-hour lessons over three weeks

HK$4,900  13.5 hours

Segmenting and Writing

This course will help your child strengthen their segmenting skills through fun and engaging activities. They will develop their writing skills by breaking pieces of writing down into manageable chunks to help them understand how to put their own thoughts into writing.

Existing students who have completed 6-Stage Phonics (Stage 3 to 6) or 4-Stage Phonics (Stage 3 to 4) of our Phonics courses can join this course without taking a phonics assessment.

Nine 1.5-hour lessons over three weeks

HK$4,900  13.5 hours

Cambridge Exam Preparation

Maximise your child’s success with the internationally recognised examinations Cambridge English: A1 Movers, A2 Flyers, A2 Key for Schools and B1 Preliminary for Schools. We use materials that are specially designed to focus on different aspects of the exam, providing students with valuable practice and exam strategies. Our courses complement your child’s existing English language learning programme and make preparing for examinations both fun and effective by using challenging and engaging activities.

Nine 3-hour lessons over three weeks

$7,050  27 hours

HK$3,860  9 hours

HK$4,900  13.5 hours

For entry requirements and special offers on Cambridge English Qualifications, please call our Customer Services staff on 2913 5100.

*The special offers are only applicable to existing British Council students or students who have completed a British Council course within the last six months. Terms and conditions apply.

Authorised Exam Centre
STEM Courses

Inspire your child with the world of STEM. The courses allow your child to explore core STEM concepts linked to real-life situations such as working on coding projects, creating toys and building a go-cart using simple machines. Your child will develop an understanding of scientific principles and improve their problem-solving skills.

Mini Coders  **NEW**

This course makes coding easy and fun. Your child will learn to program their own interactive stories and animations while developing their computational thinking, problem-solving and design skills.

Linguistic objectives such as functional language for working together, language used to describe family and school life, and future plans have been integrated into the course by British Council experts to help your child improve their language competency.

**Your child will:**
- learn to program by connecting blocks of code
- improve their problem-solving and creative thinking
- develop their presentation and storytelling skills in English by creating digital projects and digital books.

Six 1.5-hour lessons over two or three weeks  HK$3,190  9 hours

Junior Coders  **NEW**

Your child will build up their programming skills using micro:bit, a handheld, programmable micro-computer. Your child will have the opportunity to demonstrate and apply what they have learned through working on fun projects and tasks.

Linguistic objectives have been integrated into these courses by British Council experts to help your child improve their language competency.

**Your child will:**
- explore programming concepts for the real world, which will fuel their imagination
- develop their problem-solving and communication skills, and their creativity, by using micro:bit to complete problem solving projects such as making a virtual pet, interactive name badges and reaction games
- produce a written report about their project and practise their speaking skills by presenting to the class.

Three 3-hour lessons over one or two weeks  HK$2,650  9 hours

Building English with LEGO® Bricks

Linguistic objectives have been integrated into these courses by British Council experts to help your child improve their language competency.

**Your child will:**
- explore core STEM concepts linked to real-life phenomena, which will ignite their natural curiosity
- develop their computational-thinking, problem-solving and communication skills, and their creativity, through using LEGO® bricks to complete activities and challenges
- learn to predict and test outcomes, and describe them
- learn functional language for working with a partner and describing different component parts of machines.

About LEGO® Education

In order to inspire and develop the builders of tomorrow, the LEGO Group has dedicated more than 80 years to understand how students play and learn. Learning has always been at the very core of the company’s most heartfelt values. Being part of the LEGO Group, LEGO Education plays a decisive role in igniting student engagement in learning by giving them a hands-on experience that encourages learning through physical and digital creation.

Three 3-hour lessons over one or two weeks  HK$3,190  9 hours

Junior Makers

In this course, your child will tackle challenges using a variety of everyday materials and their own creativity. They will learn to solve problems together by inventing and innovating.

**Your child will:**
- learn science vocabulary (e.g. ‘forces’, ‘friction’, ‘load-bearing’ etc.)
- participate in hands-on STEM challenges
- develop English communication and presentation skills
- develop higher-order thinking skills and problem-solving skills
- use scientific methods to come up with hypotheses, make observations, design and conduct experiments, and draw conclusions.

About LEGO® Education

Three 3-hour lessons over two weeks  HK$3,190  9 hours
Creative English Courses

Your child will use their creativity to work on a project, task or presentation, like performing a sock puppet show, creating games and creating an art gallery with various pieces of art. They will learn how to form opinions and discuss and compare ideas during the project. They will develop all-round English skills as well as important life skills for the 21st century – leadership, digital literacy and critical thinking – through a series of interactive and creative activities such as games, music and tasks.

Your child will:
• co-operate with their classmates to work on and present a communicative project that encourages higher-order thinking with measurable outcomes
• learn to build accurate sentences and write creatively
• develop and refine their presentation skills and pronunciation so that they can express themselves confidently in English
• complete interactive exercises that relate to the theme
• build a significant bank of new vocabulary and phrases related to various topics and real-life situations.

HK$4,820–HK$5,330 18 hours

Six 3-hour lessons over two or three weeks / Nine 2-hour lessons over three weeks
Visit our website for further details on course content and language skills.

Each course is based on an interesting and age-appropriate topic that relates to the local school curriculum. The topic for each course is listed below, together with the project for that course:

P1  Say Hello to Primary
Get ready for a new school year. Introduce family and friends and perform a sock puppet show.

P2  High Street
Create a high street with different shops and restaurants.

P3  Amusement Park
Make a plan of an amusement park with models.

P4  Be Artistic
Create an art gallery with various pieces of art.

P5–P6  The Adventurer
Create a world map describing the journeys of famous explorers.
Based on a range of classic children's literature, our Reading Skills courses will help your child to discover the joy of reading for pleasure through engaging activities. They will learn skills and techniques to improve their understanding of stories, respond personally to the stories they read and communicate their opinions with their classmates.

Develop your child's reading comprehension skills with a course based on three classic stories. Students will move from whole group reading for overall comprehension to close individual reading, learning to identify literary features such as rhyme, rhythm and alliteration.

Three 3-hour lessons over one week

HK$3,030 9 hours

This course will focus on three popular children's classics. Your child will develop listening and reading comprehension abilities by completing a range of interactive and audio-visual activities. They will use their critical thinking skills and creativity to design new characters for the stories and participate in short writing activities such as creating alternative endings and retelling a story.

Three 3-hour lessons over one week

HK$2,930 9 hours

This is a theme-based course that uses classic storybooks about various animals to encourage an enjoyment of reading. Your child will learn skills and techniques that will improve their reading comprehension and their ability to identify different literary techniques used in English stories.

Three 3-hour lessons over one week

HK$3,030 9 hours

Focusing on some popular pieces of children's literature, your child will develop their reading and listening comprehension skills, and develop their ability to engage with a text. They will analyse and interpret the stories through a range of enjoyable activities that will help develop their critical thinking and leadership skills, as well as creativity.

Three 3-hour lessons over one week

HK$2,930 9 hours
Our Writing Skills courses are designed to help your child think creatively, express their ideas with clear purpose and understand the process of writing. Depending on their age group, they will explore a variety of text types, including stories, letters, procedures, descriptions, reviews and reports.

This writing course uses engaging children's stories to help children develop their ability to write different text types. By writing texts inspired by the stories, your child will become familiar with the features of text types such as letters, narratives, book reviews, instructions, poems and descriptions. By the end of the course, they will create a portfolio of their written work.

Six 3-hour lessons over two or three weeks / Nine 2-hour lessons over three weeks

HK$4,820 18 hours

Based on an adventure story about a dog, this course will help your child develop their ability to write different text types. They will become familiar with the features of text types such as letters, biographies, descriptions, informal emails, newspaper articles and formal letters. By the end of the course, they will create a portfolio of their written work.

Six 3-hour lessons over two or three weeks / Nine 2-hour lessons over three weeks

HK$4,820 18 hours

This course uses a classic children’s story to help your child develop their ability to write different text types. They will become familiar with the features of narratives, expositions, procedures, information reports, recounts and formal letters. By the end of the course, they will create a portfolio of their written work.

Six 3-hour lessons over two or three weeks / Nine 2-hour lessons over three weeks

HK$4,820 18 hours

Your child will work towards starring in a play with their classmates. They will create masks and costumes for their character, run through a script in costume and with music, produce a tepee-shaped poem, go on stage and perform their production, and take part in an Oscar-style award ceremony.

Your child will:
• improve their voice projection
• learn to read from a script
• improve their acting ability and confidence when using English
• learn new vocabulary related to animals
• develop their collaboration skills by working with their classmates.

Three 3-hour lessons over one or two weeks

HK$2,930 9 hours

Your child will learn how to confidently participate in a debate. They will think about the affirmative and negative positions, plan and write an opening statement, structure arguments that are supported with evidence, carry out a final debate, and participate in a debating award ceremony.

Your child will:
• learn the skills of note-taking, listening and responding to arguments
• work together with their classmates and learn how to think logically and creatively when responding to others
• speak with confidence when presenting their opinions.

Three 3-hour lessons over one week

HK$2,930 9 hours
Our Playgroup, Kindergarten and Primary courses
- are taught by internationally qualified and experienced teachers
- are interactive, fun, activity-based and help your child develop all-round English skills
- prepare your child for the new academic year
- equip your child with skills for the 21st century.

Our Secondary courses
- are taught face-to-face with constant interaction with the teacher
- focus on training your language skills with regular exam tasks to fully prepare you for the DSE
- help develop your creativity, critical thinking and communication skills with guided activities.
