ABOUT BRITISH COUNCIL

The British Council is the UK's international organisation for cultural relations and educational opportunities. We work in over 100 countries around the world in the arts, education and society. Our strong commitment to equality, diversity and inclusion is centred on building meaningful, enduring and respectful relationships across different cultures. In all this, we create a friendly knowledge and understanding between the people of the UK and the people of other countries, using cultural resources from across the UK. Teaching English forms part of our purpose and builds trust for the UK through exchange of knowledge and ideas between people worldwide.

The British Council provides learners with a rewarding and stimulating English language learning experience. We help all learners reach their full potential by respecting them as diverse individuals, and by encouraging them to be active participants in their own learning. Learning with us will ensure a dynamic and exciting classroom experience, all focused on helping our students be the best they can be.

We firmly believe that all children have potential and that every child matters – everywhere in the world. Children are a top priority as they have a unique honesty and willingness to exchange knowledge and ideas that can meaningfully build trust and make a sustainable difference in the future worldwide.

When students book an English course with us, we promise:

- experienced, internationally qualified teachers who get the best out of students, whatever their level
- 100% face-to-face lessons based on constant interaction between students and the teacher
- specially-designed courses which complement the Secondary English language curriculum and help prepare them for the DSE exam
- regular feedback throughout the course and encouragement as students progress with their learning.

OUR TEACHING METHODOLOGY

At the British Council, we help our students maximise their English learning potential. We use the most effective methodologies for all age groups to develop real communicative ability. We believe that genuine face-to-face interaction between students, and with the teacher, is the best way to achieve this and help them learn English.

Master the language skills that you need to be successful in your school exams, on the DSE exam and in global society.

Our Secondary and DSE courses

- are taught by experienced and internationally qualified teachers in a small-class setting which is focused on interaction between teacher and students
- develop your speaking skills and pronunciation and consolidate your knowledge of grammar through engaging lessons with lots of speaking opportunities, rather than a 'one-way' tutorial style
- provide regular exam practice and strategies on tackling the DSE exam by encouraging you to apply the knowledge that you have acquired to answer exam-type questions strategically
- help you learn English by using topics you care about, with a stimulating and motivating curriculum that sparks your creativity and lets you express yourself fully
- help you develop your critical thinking skills and confidence, and benefit your everyday communication in our internationalised world
- use videos, songs, websites and computer games alongside books as learning material to help you understand the formats, genres and styles of English that you will encounter in the modern world.

MEET OUR TEACHERS

We have teachers from a range of countries, not just the UK. We believe that this diversity brings great value to us as an organisation and also to you, our customers and students. Our team of over 110 teachers in Hong Kong is trained to help students achieve their goals. What all of our teachers share is a commitment to quality education and the skills, experience and training which will help them deliver on that commitment.
